Watervliet and Green Island, N. Y.

FOR THE YEAR COMMENCING SEPTEMBER 1

1931

VOLUME XCXII

Containing

Alphabetical Section. (Troy, page 235; Cohoes and Waterford, page 769; Watervliet and Green Island, page 951.) Gives names, occupations and addresses of all men and women eighteen years old or over, and all business houses. Dates of deaths during the previous year are given, and where possible, the addresses of people who have moved to other cities. The names of partners in firms are given in this department with much other information that cannot be found elsewhere.

Business Directory. (Troy, page 669; Cohoes and Waterford, page 917; Watervliet and Green Island, page 1069.) All business houses, individuals in business for themselves, and professional men are listed without charge under the heading that best describes them. The more progressive houses, realizing that it pays to be easily found, pay a nominal charge for special listings in heavy type, under every heading where a buyer might look for them, cross-indexed to a descriptive space in the "reference section."

House Directory. (Troy, page 581; Cohoes and Waterford, page 881; Watervliet and Green Island, page 1041.) A list of Householders and Places of Business arranged in numerical order upon their respective Streets. The Streets are arranged in alphabetical order and show ward in which they are located. The location of Intersecting Streets is clearly shown at the actual numbers where they intersect.

Advertising Department. (Page 97.) Where more information than is possible to give under the headings is placed on file for buyer's and seller's reference. The value of this department cannot be estimated. It is an index of the best business interests of the city, and stands for them and the city in reference libraries all over the country, as well as on the desks of progressive business men. It is accessible to everybody, and the logical place to look for specific information. This probably explains why no other form of publicity is so generally endorsed by business men, as a glance at this department will show.

Map. (Opposite this Page.) The clearest map ever made of the city, on a scale large enough to see, and small enough to be handled easily.

Street Directory. (Page 65.) A Complete list of Streets, giving numbers at intersections, and enabling one to tell at once between what streets a given number lies, and the quickest way to get there.

Miscellaneous Information. (Page 17.) Organization of City Departments, giving officers—Cemeteries—Post Office branches—Parcel Post zones and rates—Churches and ministers—Societies, Institutions, etc., with officers—Courts—Population tables—Calendar, etc.

TROY, NEW YORK

Troy, a commercial, industrial and educational center at the head of tidewater navigation on the Hudson River and at the terminus of the Erie and Champlain Barge Canals, is most advantageously located at the intersection of the main trade and travel routes by water, rail, highway and air. These routes extend north and south along the Hudson Valley, eastward in approximation with the old Mohawk Trail and west through the fertile valley of the Mohawk River, which finds its confluence with the Hudson opposite this city. Although it lies 156 miles from the ocean at the metropolis there is an average tide of 3.62 feet at the Federal dam here.

A settlement was started about 1786 at Vanderheyden's Ferry, not far from the Indian village where Uncas, hero of J. Fenimore Cooper's "Last of the Mohicans," was born, and in 1789 it was named Troy, the first of that series of cities and towns in New York State which took classic names. It promptly became the county seat of Rensselaer County formed of that section of the original Rensselaerwyck Manor lying east of the Hudson River.

Troy is the center of a compact urban population of 150,000, comprising five cities and villages, with Watervliet, Cohoes, Green Island and Waterford connected by four bridges, practically forming a part of this city's commercial and industrial life. It is the wholesale and retail trade center and the principal market of a population of upwards of half a million in the fertile agricultural regions to the north and east which are dotted by many thriving industrial villages, attractive residential hamlets and resort regions.

Industrially, a distinguishing feature is that Troy has a larger number of industrial workers in proportion to its population than almost any other American city, approximately 24,000 wage-earners out of a population of 72,800 being employed in 220-odd industrial plants to produce annually $75,000,000 worth of manufactured products. This may be accounted for by the large percentage of women employed in needlework industries. For more than three-fourths of a century Troy has been the world center of collar manufacturing, producing nine-tenths of all the detached collars made in America, giving it the name of "The Collar City." A Troy housewife, Hannah Lord Montague, invented the detached collar in 1827.

The first settlers, Dutch and New Englanders, took advantage of natural water-power to develop industries and the river for commerce and trade. Their enterprising descendants built the first railroad to Saratoga, a highway and railroad westward and to the eastward a railroad and projected the Hoosac Tunnel. Today Henry Ford's hydro-electric development at the Federal dam generates over 30,000 horsepower to operate the big Ford Motor Company plant on Green Island. Once the seat of the iron and steel industry in America, using the fine ores from Port Henry on Lake Champlain, Troy still has important iron industries producing merchant iron, horseshoes (the machines for making which were invented here), rail-joints, stoves, boilers, grates, springs and other iron products. In Troy foundries were made in 1861–62 the armor plates for the famous Monitor which was sponsored by two patriotic Trojans, John A. Griswold and John F. Winslow. Today at the Watervliet Arsenal, across the river, are made the big Navy and seacoast guns.

The new $6,000,000 Hudson Valley Coke plant supplies gas for lighting and fuel to eight neighboring municipalities and produces important by-products. At the focusing point of the New York Power and Light Corporation's great power transmission system, Troy's industries are amply supplied with needed electrical energy at favorable rates. Among Troy's unique industries are plants which manufacture valves, bells and surveying instruments which go to all parts of the world. Among its other well-known products are shirts, men's, women's and children's clothing, underwear, yarn, paper-boxes, brushes, fire-brick, fire-proofing, scales, chains, paint, fish-lines, cordage, thermometers, files, abrasives, stamped tinware, hydro-extractors, button-holing and knitting machinery, cigars, building trim, and a variety of other manufactured articles. Laundries and bleacheries are among the allied plants.

The municipal services of the city are maintained on generous lines and are modern in every particular. Troy has upwards of 73 miles of paved streets, much of which is asphalt or bitulithic surfaced. An extensive ornamental lighting zone covers the business centers. The city is provided with a $4,000,000 gravity water supply adequate for all future needs, a mile of new concrete docks bordering the Troy harbor, underground telephone, telegraph, and electric wires, a newly-built and modernly equipped centralized police and fire headquarters, with completely motorized fire apparatus and trained firemen in municipal employ, and a complete sewage system with a municipal garbage disposal plant in course of preparation.

With a total assessed valuation of $66,000,000, Troy municipal credit is well established, its bonds in demand at a good premium and a municipal debt well within the limitations. Public improvements approximating half a million dollars are going forward this season, much already completed. The city operates under the uniform charter for Second Class cities. Its system of current tax collections saves heavy interest charges, and its improvements and supplies are contracted for under the competitive building plan.

The city exercises its impulses along aesthetic and public welfare lines freely, with 250 acres of fine parks centrally located, playgrounds and recreation centers, municipal swimming pavilion and public baths, under the direction of a Recreation Commission, zoning ordinances and the influence of an active City Planning Commission, with architecturally attractive public and private buildings and monuments, a Public Library of 60,000 volumes housed in a magnificent replica of Italian Renaissance architecture, one of the finest Music Halls and public auditoriums in the country, a health center, two new monumental banking buildings and other business and organization structures that add beauty to the vistas of the busy streets.

Troy has upwards of 20,000 homes in its fine residential sections, in Lansingburgh and on its hills, above the business and industrial center, spreading out into an expansive rolling plateau into the country beyond where there are attractive suburban homes on every side. A very large part of all these are individual homes, many of them on spacious grounds, and owned by the occupants themselves. Housing conditions are in general much above the average city, rents rule considerably lower and three building and loan associations, an active real estate board, banking interests, the building supply manufacturers and extension projectors all encourage and aid home ownership among industrial workers.

As one of the great pioneer educational centers of this country, Troy's position is a proud one, for here are located Rensselaer Polytechnic Institute, founded in 1824, the oldest college of engineering and science in America, with a present registration of 1,500 students; Russell Sage College, developed in the last decade as a college for women that has gained high standing, now having more than 400 students; and the Emma Willard School, dating back to 1816, the first school for the higher education of women, now a girls' preparatory school with several hundred students. The Institute and Willard School are housed in new collegiate buildings representing an outlay of more than $3,000,000 and surrounded by beautiful and sightly campuses and Sage College has secured a new site. At Rensselaer Polytechnic Institute is located the oldest and largest college broadcasting station, W H A Z, holding many world records for radio transmission. The city also has four High Schools, 18 public schools, several in new model buildings, 10 parochial schools, a Country Day and other private schools, providing adequately for the needs of its 17,000 pupils. This city provides as few except the very largest do for the complete education of its children. Troy is also a recognized musical center, with two complete conservatories of music and many individual and group instructors, a famed male Vocal Society and a fine Music Hall which affords the presentation of the representatives of the world of music.

Favored as a center of travel by automobile trunk lines on the most direct route from the metropolis to Saratoga and the Adirondacks, thus avoiding the congestion of traffic on two bridges, Troy's main automobile arteries in both directions, lengthwise and crosstown, are direct, with no tortuous or confusing routings. Within the county and a radius of perhaps twenty miles are upwards of thirty sizable lakes and ponds, many of which are developed into summer residential colonies or resorts within easy access of its urban population. A choice of scenic routes leads to the East, by way of the Mohawk Trail, the new Petersburgh mountain route or to Pittsfield, Mass. Motor-bus lines and freight trucks run in all directions, a dozen regular passenger bus lines starting from the Chamber of Commerce terminal.

Three leading railroads unite in a joint terminal at the Troy Union Station, the Boston & Maine, the New York Central and the Delaware & Hudson lines, and each road maintains spacious freight houses and yards separately. Hudson River night boats, three steamboat freight lines and several barge and towing lines on the river and canals furnish service for water transportation. Troy's new airport is in service and expects to fill an important place at the junction of the main air routes of the East.

Troy's wealth is consistent with its industrial and business activities and its financial interests are served by a savings bank, three national banks, a trust company, three building and loan associations and a loan institution, with total assets nearing the $100,000,000 mark.

Because it is the business, marketing and amusement center of an urban, suburban and rural population of upwards of a half million people, Troy has wholesale and retail establishments which are comparable with those of many larger but more isolated cities. Its wholesale establishments and distributing plants ship by freight, express, truck and mail to many points within a radius of 200 miles or more. Its three large department stores, which are the equal of many metropolitan rivals because within a few hours of the style centers of the East, its large furniture emporiums and its hundreds of retail stores and specialty shops, especially its shops for women's wear, are on a par with the better class of stores in any city. Shoppers come from many miles to trade here and find that for style and quality Troy stores rank with the best.

A few years ago Troy opened its new million-dollar hotel, the Hendrick Hudson, financed and built by its own citizens, and operated with Hotel Troy, previously built, also through the Chamber of Commerce, in the United chain of hotels. These two fine hotels, with four or five other commercial houses and family hotels make Troy a favored convention city, which during the last season entertained a half dozen state conventions of the largest proportions and many minor and group conventions. The spacious crystal ballroom of the leading hotel and the Music Hall auditorium seating more than a thousand provide ample accommodations for large gatherings of delegates.

Troy has seventy-one churches, five hospitals, a dozen charitable institutions and homes, being especially noted for its generous philanthropic expenditures, two Y. M. C. A.'s, a Y. W. C. A., Masonic, Elks, Knights of Columbus and Odd Fellows buildings, Troy Club, Labor Temple, two country clubs with golf courses, driving club, boat and athletic clubs, lyceums, fraternity houses, fraternal organization and club quarters and many church clubs and organizations. It has a dozen theatres and movie houses, including two that rank in size and architecture with leading metropolitan theatres. Troy is served by four representative newspapers, two dailies, one Sunday and another weekly publication.

Troy is known to fame as the progenitor of the nickname by which the United States is commonly known, " Uncle Sam" when, during the war of 1812, a cantonment was established at Greenbush, south of this city, Samuel Wilson, a leading citizen, brick manufacturer and dealer in cattle, who was popularly known to Trojans as "Uncle Sam," undertook a contract to pack and ship beef and other meats to the military camp, the wooden casks were stamped by the inspector, Elbert Anderson, with the initials, "E. A., U. S." The Troy soldiers, knowing whence the meat came, facetiously applied the name to it, calling it "Uncle Sam's beef," and explained that that was what the "U. S." on the kegs stood for. The other soldiers carried the name away as an appellation for the United States, and when later the soldiers were offered public lands in the West, a song sprang into vogue having the theme, "Uncle Sam is Rich Enough to Buy Us All a Farm," and the name stuck. In somewhat similar manner the name "cop" as applied generally to policemen was derived from the name of the first Chief of Police of Troy, Amasa J. Kop. The name "Giants" as applied to the New York National Baseball League came from the six stalwart six-footers of the Troy National League team when they and the baseball franchise were transferred to New York City in the early 80s.

Troy is known in military history for other incidents than that two Trojans made the building of the Monitor possible. The Second Regiment, recruited in this city and which departed for the war front May 18, 1861, was the first Northern regiment on Virginia soil. In command of that department was Gen. John E. Wool, a Trojan, who was an officer and a hero in three United States wars, and the monument to his memory rising above Oakwood Cemetery is the largest single monolith of granite ever quarried and set up. Here is Earl Crematorium, said to be the finest in the world. Two other Civil War generals are buried in Oakwood, Gen. George H. Thomas, the "Rock of Chickamauga," and Gen. Joseph B. Carr. In the World War, another Second Regiment from Troy, became part of the 105th Infantry of the famous 27th Division which broke the Hindenberg line in September, 1918.

With living, housing and other conditions favorable to labor and a large skilled industrial population to draw upon, the Troy Industrial Commission inaugurated by the Troy Chamber of Commerce and the Municipal Industrial Bureau are further diversifying the industrial life of the community by offering the manifest advantages to be had here in available plants and sites, unexcelled transportation facilities of all kinds bringing the largest consuming markets of the more densely populated East within easy reach and in plentiful supply of electric power. Civic, financial, business and municipal authorities are in cooperation. Manufacturers who have had them brought to their attention are not slow in recognizing the advantages of this location and already a half dozen important concerns have located establishments here within the last year and others are taking the matter under consideration.

Information

in the mass seems like a dull proposition, but when we have a need of some person or thing nothing interests us more than getting information about that person or thing.

This directory looks like a big book to be walked around or fallen over or put out of the way, until you need some information that it contains—then it becomes the handiest thing around the place.

Has it ever occurred to you how much information you could get from this book, if you really knew how to use it.

There is a great mass of information here, arranged in a logical way that experience has shown most easily referred to. It does take a little study to know how to make full use, however, like anything else worth while.

A little study that opens up a new way to save time or increase accuracy is an asset to anyone. It may be you will find a lot of information you did not know was here before, that you would have spent a lot of time and trouble to find in other ways, and you will have increased your efficiency just that much. In buying, in selling, in shipping, correspondence, granting credit, sending bills, collecting money—

TROY STREET DIRECTORY

COPYRIGHT, 1931, SAMPSON & MURDOCK CO, INC.

Giving the name of each street and showing what other streets and places run from it or across it with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained; as for instance, wishing to know at what part of Second street No. 168 comes, look at Second street, and it is found that Liberty street crosses at 156, Washington street at 178, showing that 168 Second street would come half way between Liberty and Washington streets.

Ciphers are substituted for numbers on streets not fully numbered.

YOU LIKE to Patronize those Concerns Who are in Business to Stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quicks and other schemers have little use for directory advertising. It lives too long.

The modern city directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

IF YOU ARE NOT ADVERTISING YOUR BUSINESS IN THE DIRECTORY, MAY WE EXPLAIN HOW AND WHY IT WILL PAY YOU?

There are two kinds of Advertising

That which the Buyer seeks, and that which is thrust upon him.

Both are good

Display advertising *suggests* wants and *creates* desire. Of its tremendous power many present day successes bear witness.

Reference Advertising steps in when the desire has been created. It shows where the goods can be purchased and gives information that the buyer wants *when he wants to buy.*

A Connecting Link

The weakness of display advertising is that often a need is not realized until the ad that suggested it is misplaced or thrown away.

A shrewd buyer usually looks the field over before buying and where is so logical a place to look as *in this book.*

A Help to You

In your buying, use the lists in this book. If you see a name in *heavy type* it is because that concern thought enough of your possible business to make it easy for you to find them. If it says "See page — —", you will find there information that will really help you.

Are You Covered?

Have you made it easy for buyers to find you, by putting a bold type listing under every heading where they might look for you or a competitor. Have you put information in the "Selling Section" that will really help a buyer, and point to *you* as the one who can serve him best.

If not, make a note to do it in the next edition, and let us tell you *now* how little it costs to be *protected.*

Troy Directory

Advertising Department

Silver trophy awarded each year by the Direct Mail Advertising Association for the best direct advertising campaign of the year with letters a prominent part. Won by Sampson & Murdock Company in 1929 for campaign prepared for the Copley-Plaza Hotel; won by Sampson & Murdock Company in 1930 for campaign prepared for the Workingmens Co-operative Bank.

IT'S well to know what sort of background an advertising house has before you spend your money and entrust the directing of your selling policy into its hands.

Good advertising brains, long and varied experience, mechanical equipment of the latest and most approved types, and financial responsibility—these are the things that make Sampson & Murdock Company one of the most important direct advertising firms in the East.

Directory publishers since 1846, compilers of special mailing-lists ever since mailing-lists have been used, and now—the latest stage of a progressive development—a completely staffed and splendidly equipped creative direct advertising house.

As proof of the quality of our work we invite your inspection of any advertising campaign we have produced, and call your attention to the prize award pictured at the top of this page which stamps our work as uniformly successful. As proof of the up-to-dateness of our equipment and the proficiency of our mechanical layout, we invite your inspection of our offices, our directory library, and our two plants at your own convenience. As proof of our financial responsibility, we invite your inspection of our rating in Bradstreet's or Dun's.

We will appreciate the opportunity to consult with the officers of any firm interested in the possibilities of carefully planned direct advertising as a stimulant to sales.

POWER OF ADVERTISING

The **City Directory** is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you!

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

Are They Used?

Two old books. The picture surely tells you that. They are dilapidated and thumb-worn, but here are the facts regarding their age.

One of these Boston Directories has been used at the Information Window of the Statler Hotel for five months. The other has been for six weeks on the public stand in South Station Waiting Room, Boston.

Do people use the Directory, and do they read what advertisers in this book have to say about their products?

Our picture gives you the answer.

The TROY Savings Bank

Established 1823

Corner State and Second Streets

THE BANK FOR YOUR SAVINGS

The Troy Savings Bank—a bank of proved strength—is the ideal depository for your funds.

It has been the guardian of the people's savings for over a century and is a purely mutual institution conducted solely in the interests of depositors.

Thousands of men and women have accumulated substantial accounts by regularly depositing a fixed portion—sometimes a very small amount—of their earnings every week or month; what others have done you also can do. Deposits received from $1.00 to $7,500.

How to Make This Book Serve You!

The City Directory may be used to great advantage in supplementing and rounding out your newspaper publicity. Put—"We are listed in the directory" in your copy. Tie up all your advertising to the directory with the above phrase. Then see to it that you are properly represented under all the business listings applicable to your business. The phrase will stick long after the newspaper has been mislaid and people will get in the habit of looking for your name when ready to purchase goods which you carry. Thus will the interest aroused by your newspaper display be extended and preserved for your future benefit.

When you see our name in a Directory you may be sure of these four things

1st.—Every effort has been made to secure accurate information.
(*We employ men of experience and ability and insist on accuracy*)

2nd—The price of the book is as low as the cost of production and a reasonable profit will allow
(*Compare prices with those of other directories from all over the country*)

3rd—The Advertising Department is a fair representation of the best business houses of the city.
(*A glance over the advertising section will prove this statement*)

4th—The Advertiser gets more for his money than from nearly any other publication.
(*Our representative will gladly show you why*)

LETTERS

Sales Letters: Letters, because their real object is to appear as personal messages and not advertising, are the most difficult form of advertising to prepare, and should always be done by trained minds. Our Sales Promotion Department has a splendid record for successful letters.

Processed Letters: Our Kier Processed Letters are exactly like good individually typed letters. A new process you'll be interested in.

MAIL ADVERTISING SERVICE

Complete from Plan to Mailbox

SUCCESSFUL selling ideas grow out of the fusion of two types of fundamental knowledge—intimate knowledge of the product, which you have; intimate knowledge of selling methods, which we have. We talk it over with you, analyze, and the idea begins to grow.

After the basic plan comes the business of research for data, writing copy, creating typographical style, and similar mechanics of the craft. Our Copy and Service Department is organized to take care of this part of the work.

Lists, of course, are a vital factor; and we naturally have unusual facilities for compiling them because of our directory connections.

Multigraphing and mailing must be well done if the whole campaign is to be effective. Our large Mechanical Department is equipped for speed and facility of operation.

Ours is a complete service that relieves you of every mail advertising detail

The Sign Over Your Door

is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

If you could put a sign where everyone could see it, would it interest you?

THE CITY DIRECTORY

is where people look for you when they want to do business. You should make it easy for them to find you, by putting such information as a buyer wants, in the Directory, properly indexed under all headings where he might look for you.

To be properly registered costs less than to be left out

Represents You

NATIONAL ADVERTISERS

are coming more and more to realize that newspaper or magazine publicity brings better returns when coupled up with an advertisement for the local agent in the City Directory. Put "See the City Directory for our local agent" on all your advertising, and see to it that he is listed under all the classifications in your line.

LOCAL ADVERTISERS

will improve their sales of nationally advertised products if they can induce their supply house to advertise in the above manner.

Every Wasted Minute Costs You Money

Whether it's your time or that of an inexpensive clerk that is wasted by using an out of date directory, *the loss is yours.*

In the course of a year the time wasted usually costs far more than the price of a new directory.

Misdirected parcels or messages cause expense and annoyance.

Cut out this leak. Order a new city directory at once. It will pay you bigger dividends for the money invested than many of your ventures.

When you see our name in a Directory you may be sure of these four things

1st—Every effort has been made to secure accurate information.
(*We employ men of experience and ability and insist on accuracy*)

2nd—The price of the book is as low as the cost of production and a reasonable profit will allow

3rd—The Advertising Department is a fair representation of the best business houses of the city
(*A glance over the advertising section will prove this statement*)

4th—The Advertiser gets more for his money than from nearly any other publication.
(*Our representative will gladly show you why*)
